

NAK06-877S / NAK06-882S • Installation

NAK06-882S: replacement for a NAMCCO solid flywheel.

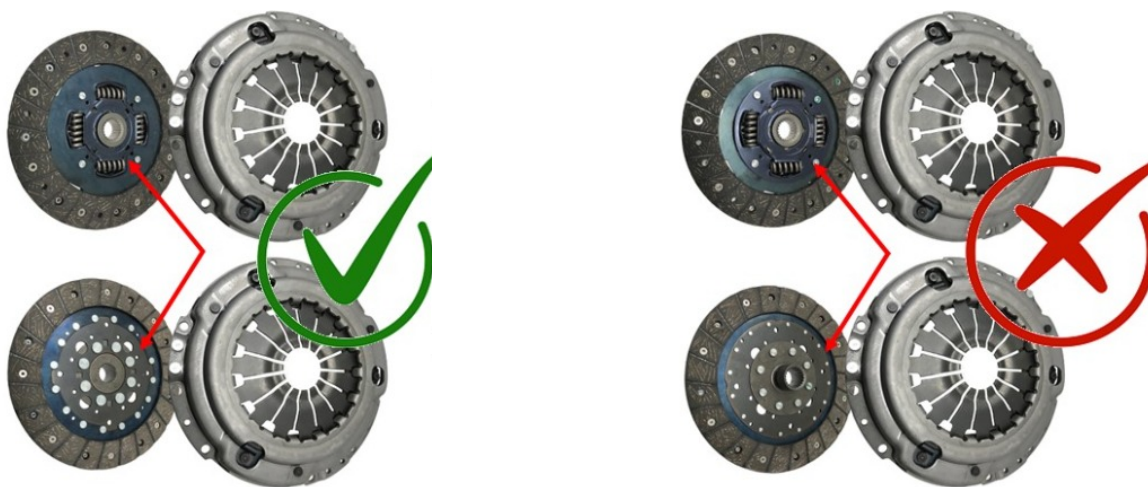

NAK06-877S: replacement for the original dual-mass flywheel.

Nissan application	Engine / transmission	Years
Cube	L4 1.8L	2009-2014
Sentra	L4 1.8L / 6-speed	2013-2019
Sentra	L4 2.0L / 6-speed	2007-2012
Tiida	L4 1.8L / 6-speed	2007-2018
Versa	L4 1.8L / 6-speed	2007-2012

The kits include a pressure plate, damped disc, hydraulic release bearing and alignment tool.

Both kits: flat disc side toward the pressure plate; raised side toward the flywheel.

This is the reverse of the usual orientation. The disc does not have an orientation marking; reversing it can prevent the clutch from disengaging.

Left: correct installation. Right: incorrect. Top: NAK06-882S; bottom: NAK06-877S.

Warranty: diaphragm-to-disc rubbing due to incorrect installation is not accepted under warranty.
